Molnár Bálint

Software Developer

ABOUT ME

I consider myself responsible, a fast learner, and adaptable. I am able to work independently and have excellent communication skills. I am diligent and always deliver quality work. I have a genuine interest in both information technology and business.

My goal is to deliver the best possible performance for a company while keeping its interests in mind. I believe that continuous improvement is essential for any organization, and that employees should see it as their own responsibility. I adapt easily to changing circumstances, learn new tasks quickly, and approach challenges with flexibility.

WORK EXPERIENCE

Software Developer (Game Development) *2025.01 – 2026.10*

Aphyra Games – Sárvár

- Full-cycle development of an indie video game.
- Full development lifecycle experience – development, testing, bug fixing, building, localization preparation, and readiness for Steam release.
- CI/CD pipeline management.
- Designed and developed complex UI/UX systems, creating responsive, player-friendly interfaces adapted to various resolutions and platforms.
- Independent problem-solving and debugging, identifying and fixing hard-to-reproduce UI, state-management, input, transition, audio, and timing issues.
- Built modular, maintainable code with reusable components, structured scripting, and consistent naming conventions and development structures.
- Managed the multimedia pipeline, preparing, optimizing, and integrating images, animations, sound, and video into the game.
- Cross-platform mindset – beyond PC, considered support for various screen sizes and control modes, including Steam Deck compatibility.

Full-stack Developer (Web Development) *2024.06 – 2025.04*

GreenSense Consulting Kft – Budapest

- Tech stack: HTML5, CSS3, Bootstrap, JavaScript, PHP, Hosting: RackForest
- Responsive, mobile-friendly design
- Optimized images (WebP) + consistent color palette, typography, and spacing
- SEO optimization
- A/B testing
- Performed custom server configuration to ensure stable and fast operation

Logistics Specialist (Logistics – Automotive) *2024.01 – 2024.05*

Autoliv Kft. – Sopronkövesd

- Proven ability to learn quickly and adapt to new situations.
- Excellent communication skills, both verbal and written.

Escalation Manager (Logistics – Automotive) *2023.04 – 2023.12*

Provertha Electronic Components Zrt. – Sárvár

- Managed and motivated employees to work efficiently and stay engaged.
- Successfully completed numerous tasks within set deadlines.
- Increased performance by monitoring daily activities and mentoring team members.
- Improved customer satisfaction by resolving disputes promptly, maintaining open communication, and ensuring high-quality service.
- Communicated effectively with colleagues, suppliers, and stakeholders to keep everyone aligned on shared business goals.

AI

- MCP pipeline
- Agent.md
- Context Management
- Prompt Engineering

Office

- MS Office
- Outlook
- SAP

SKILLS

- Problem Solving
- Team Collaboration

Junior Tax Consultant *2022.12 – 2023.03*
Ernst & Young – Pécs

- Monitored projects to ensure compliance with legal and regulatory requirements.
- Prepared detailed reports on compliance metrics, informing senior management of key trends and areas needing improvement.

Finance Specialist | University Job | *2022.01 – 2022.09*
ProITCon – Pécs

- Collaborated with professionals to achieve project goals on time and within budget.
- Increased customer satisfaction through proactive problem-solving and efficient complaint handling.

Interpreter – English Interpreter | Student Job | *2019.05 – 2019.08*
FLEX Sárvár – Sárvár

- Enabled clear communication between business partners by translating complex technical jargon into easily understandable language.
- Improved client communication by providing accurate and timely interpreting services during meetings and conferences.

Logistics Administrator | Trainee | *2017.09 – 2018.06*
Galambos Logistic Kft. – Vép

- Maintained detailed records of shipments, tracking their progress from order placement to final delivery.

Logistics Administrator | Trainee | *2016.06 – 2016.08*
Sága Foods Zrt. – Sárvár

- Improved warehouse organization by maintaining a clear labeling system and an efficient storage layout.

PROJECTS

For My Darling — Aphyra Games (Engine: Python / Ren'Py — Release: Steam / itch.io)

- Full-scope development role: Took on a Full-stack developer role, also handling: Story, Gameplay, UI/UX, Graphic/Visual Design, Composer, Marketing, social media, CI/CD, etc.
- Managed the build and release process for the itch.io platform (Butler CLI), including optimizing a high-volume image asset pipeline of several thousand items.
- Brand and presentation management: created a press kit, brand guidelines, and a visual identity system (color, typography, and logo usage rules).
- Reviewed and refined contractual and legal documentation (contributor agreement).
